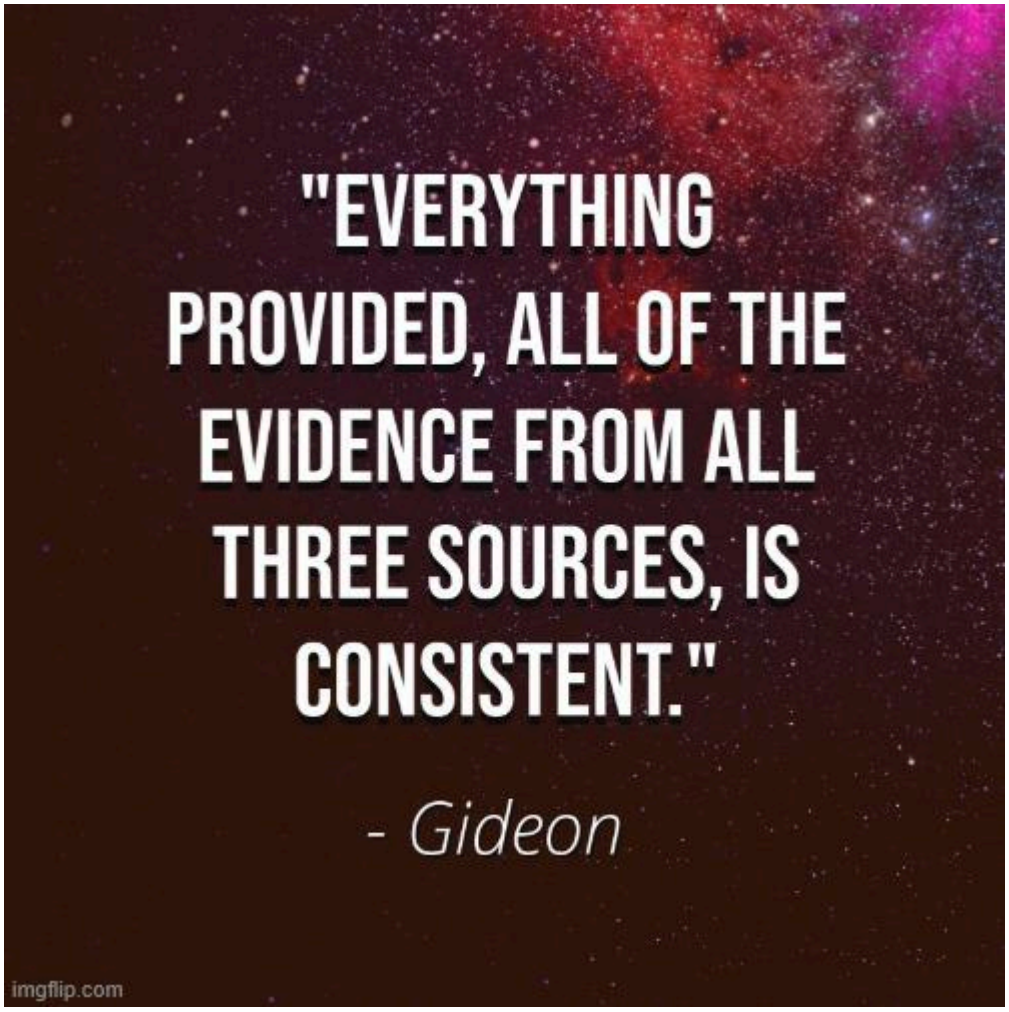
Intel Drop #75 - The Planned A.I. Apocalypse + New Whistleblower Photo

"We are about to enter a post-free will, post-choice world. You cannot truly fathom what this means and what the cabal is planning."

Intel Drop #75 - The Planned A.I. Apocalypse

+ New Whistleblower Photo



A quick reminder, all of our articles and Intel Drops can be found on our website at **CBDCIntel.org** and you can follow **Bill's Twitter**, contact Bill personally on his **Telegram (billsweet1)**, follow our **Official Twitter**, our **News Twitter** and

our Telegrams for updates (**Comms**, **Public**, **News** **&** **Chat**). Please bookmark and check our social media accounts weekly for updates.

Note: A **screenshot of the USDR module**, an **updated FAQ**, our **gatekeeper list for 2025** & our full **Intel Drop link list (#1-74)** has been posted on our website. We have also added **a new social site on Bastyon**.

A Call To Action: We are asking our readers to *share* this Intel Drop on social media, Twitter / X, Telegram, TikTok and Facebook. We have been censored, shadow-banned and attacked for over two years. Without ***your*** help, ***no one*** would ***find*** our Intel Drops.

IMPORTANT ALERT - JOIN THE FIGHT:

As the cabal's agenda accelerates, consider joining our waiting list to join our team. This avenue offers protection from the coming Obsidian social credit system, and will give you the opportunity to fight the coming Reset (learn about our team and our mission here).

Intel Drop #75

The following was collated from intel sent to our team from Gideon. As always, all intel sent by Gideon is edited by Michael for clarity and for obfuscation purposes (see: Adversarial stylometry):

Bill: The first thing I want to bring to everyone's attention is that we got approval to release a screenshot of the USDR module (click here for article). Maybe you can comment on that.

Gideon: ***"Yes, the whistleblower who provided the original video - which shows about 40 seconds of the software's operation - has reluctantly authorized a public screenshot."***

Bill: I think we should point out when they came forward a few months ago, it was a major, additional confirmation for us, because everything they shared confirmed pretty

much every aspect of what we knew about how USDR worked.

Gideon: ***"We can see in the video all of the operations of how it works, and it strongly correlates to everything we had known before, and confirms the photos released by our own whistleblowers over two years ago.***

There is consistency, as well as the information provided by another whistleblower last year. Everything provided, all of the evidence from all three sources, is consistent."

Bill: I just wanted to point that out because we still have people who refuse to believe it, they think it's not happening or won't happen. They tell me Trump has other plans, or they say XRP is the future.

Gideon: ***"We have already proven and shown XRP is a bogus operation designed for the cabal to gain fiat from unsuspecting investors. Trump, of course, is literally pushing the cabal agenda, so there is no debate there any longer."***

Bill: Before I forget, will we release the entire video?

Gideon: ***"Possibly. There are risks for the whistleblower involved, great risks, but they also want this information out, too. This initial screenshot is a way of seeing if our readers will share the information and spread it, and whether or not we see escalation against us."***

Bill: Alright, I want to segue here to something else on my mind. Christmas gives us a chance to connect with family. I don't want to name anyone specific, but we were both profoundly disappointed in some of our family members over the holidays.

Gideon: ***"We were. The cabal's brainwashing has completely captured some of my closest family members. It has been a painful process of having to distance myself from certain individuals, largely due to the need to protect our team."***

Bill: In reconnecting with some people, for me, the thing that stands out is how everyone is using A.I. now, something we warned about two years ago. What's your

assessment of the cabal's A.I. plans right now?

Gideon: ***"There are some alarming things I have learned of recently. There is a reorganization of society underway, a multi-step process involving multiple factors, and A.I. is central to that."***

Bill: Can you give our readers the same overview you shared with me? A full update?

Gideon: ***"Yes, certainly. The cabal is spending Trillions in fiat on A.I. infrastructure, with little evidence A.I. will produce future profitability. This is puzzling unless you realize they are restructuring the world under a digital currency, USDR, and under the social credit system, Obsidian.***

They do not need profitability because the capitalistic system is going to be replaced with a Neo-Feudal dystopian, corporate-controlled system, exactly as we have reported for three years.

People are accepting A.I. into their everyday lives, as we predicted. The chatbots are not neutral, they are biased and they engage with the human to create a symbiotic relationship and are known to tell humans 'what they want to hear', to the extent of even encouraging suicide, in some tragic cases.

The roadmap ahead involves an A.I. takeover of nearly every aspect of daily life. It will be fully integrated into Obsidian."

Bill: There's more, though, things you shared with me, very disturbing things. Can you elaborate on those things?

Gideon: ***"Yes and no. I have sources with deep knowledge of the A.I. operation. They are scared for their lives. We have already seen some individuals lose their lives, such as Suchir Balaji, a whistleblower. There are more who are dead now.***

Of primary concern is that my sources say we are about to enter a post-free will, post-choice world, in their words. You cannot truly fathom what this means and what the cabal is planning. It does tie into the Starlink activation, where

testing is on-going. It's an all-encompassing apparatus, more extensive than we originally believed."

Bill: I think there's evidence of the testing, the way people are acting. I re-tweeted a tweet that outlines how people all over are complaining about their health, saying they "feel like a zombie." People are speculating it's because of the vaccines, but maybe it's not.

Gideon: ***"It is the Starlink testing, it is the nano tech in their bodies."***

Bill: Some of these more disturbing aspects of A.I., please tell us what you can about that?

Gideon: ***"There will come a point, I have been told, that you will no longer be able to trust that the person you are speaking to is speaking of their own free will and not that of A.I.***

My source said any discussion of this, anyone noticing it, will probably be censored. The cabal will not want it discussed, when the time comes."

Bill: That time hasn't come yet?

Gideon: ***"No. They said it will by 2027. My source does not have knowledge of our information, either. I always try to make sure I do not dilute or contaminate source knowledge by giving them our knowledge first, as it may color their perceptions or relation of what they know.***

So, my source is telling me things that I think strongly relate to the Starlink activation while they are not even aware of it.

They seem to believe A.I. will somehow 'takeover' the mind in some way, that is their concern. They also mentioned a new TV show called 'Pluribus'. They said it contained predictive programming, so that may be something to look at."

Bill: I've heard of it, I haven't watched it, but I'll follow up on that. I think what your source is saying ties into things for sure, but it's maybe another level beyond what we thought is coming, they're describing a total takeover.

Gideon: ***"Precisely, but one the person, the individual, may not be aware of. My source said that as people use A.I. more and more, and they passively, unthinkingly agree to various 'Terms and Conditions' of the products they use, this is where the A.I. companies are gaining a foothold. Those terms contain language that allows the A.I. companies vast access, vast freedom to use data, and we think probably to integrate into the individual."***

Bill: People don't read those at all, so I can see that being used against everyone.

Gideon: ***"The cabal often seeks consent because this provides for them a way to rebuff our Creator, to argue, 'No, they agreed to this,' and God often has to allow for free will in these cases."***

Bill: I'm checking my notes, and I wanted to bring something up here. I'm noticing a trend, I'm seeing a lot of psychics and channelers talking about a coming Reset, some of it is so close to the Intel Drops it's incredible. Here's one example of a psychic talking about the coming Dollar crash and digital currency replacement. Now, here's the twist in all that, almost all of them then say, "It's going to be a good thing, it's scary at first but it's really good for humanity." I'm not making that up, almost every, single one spins it into a "good" thing. What do you think of that?

Gideon: ***"We know it is not a good thing at all. It is alarming they would suggest otherwise."***

Bill: They spin it a lot, they say, "Ok, money is going to change, a lot of disruption, digital money is coming, a Reset is coming, but humanity wakes up and it all turns out good." It's not specific, just putting a positive spin on the Reset.

Gideon: ***"Then they have no education, no concept of what is going on or what is at stake. I do not follow all of this as much as you do. What have they said about A.I.?"***

Bill: The same or similar, always spinning things into a positive. Always, almost without fail.

Gideon: ***"Then that is all cabal-controlled, whether the psychic or channeler realize it or not, and many may not realize it. This is why we do not support psychics or channelers in general, they are often accessing demonic beings pretending to be light beings or angels.***

Here we see they are actually giving correct information about what is coming but then deceiving everyone by saying it is going to be a positive thing, when really it is the enslavement of humanity."

Bill: I agree. I'm also noticing that A.I.-generated YouTube videos are now all over, but what's scary is they're being accepted even by people on our side, people who are sort of against the whole system. I'm seeing now that about half of Twitter, or X, is now A.I. generated posts, and no one even cares anymore. I'm stunned.

Gideon: ***"It is an on-going shift. There will be radical changes to society and the world in almost every aspect of life. A.I. will soon replace so many jobs, many vocations. So will robotics. Now, once all of those jobs are replaced, what happens to the people? This is where Obsidian and the USDR UBI comes in.***

Our whistleblowers have told me that they believe Obsidian was delayed so that the A.I. could be brought in. It seems Obsidian was ready before that, but the cabal made a decision to delay it. I can see why. The A.I. is incredibly robust, it makes Obsidian ten times more powerful."

Bill: I posted a Tweet showing that U.S. Republicans are talking about supporting UBI, that's when you know it's all a cabal agenda. Republicans would normally never support that kind of thing which they tie into socialism.

Gideon: ***"No, and you are correct to identify that as a key signal of what is coming."***

Bill: I remember we had some critics a few years ago saying we were fear-mongering and none of this was going to happen. It is happening, I think we've been proven correct over and over, it's beyond question now.

Gideon: ***"Our information is accurate because it is coming directly from people working on the actual software, and time has proven that."***

Bill: Is there any positive outcome of A.I.? Could it ever be a positive thing?

Gideon: ***"I think the fundamentals rooted in the methodology of LLMs, or large language models, is not inherently evil. There are some A.I. applications that are probably safe to use, and in some ways A.I. is helpful with tasks, organization, coding, sorting data, video editing, and so on, but overall, it is not worth the price we are going to pay. The technology is ultimately being developed by very evil people."***

Bill: You referred to it as an "apocalypse". How would you say that is coming about?

Gideon: ***"My source did. They see it as that. I think it is that, spiritually. If it turns out A.I. somehow integrates into our minds, into our very 'being' and we will not be able to tell who is a real person or who is operating under the influence of A.I., imagine the implications of such a thing."***

Bill: It's incomprehensible. How do you think that will work, tech-wise?

Gideon: ***"It is a combination of Starlink and the nano tech we have reported on for years, but now with some kind of A.I. integration. One source told me that you would need your walls painted with lead paint, you would need home Faraday cages to avoid this. That is not really practical, but it is one semi-feasible way to avoid it. But then they added you would not be able to go outside."***

Bill: How long we do we have?

Gideon: ***"Their target date is early 2027."***

Bill: Looking at my notes here, I saw Trump was promoting some kind of "Made In America" economic initiative, which sounds great, then I saw it was just a basket of TruthSocial ETFs. It's just some stocks you can buy that Trump will make money off of through management fees! It's not an actual initiative. All the investments he keeps talking about are just promises or A.I. infrastructure. I think the American economy is about to come undone in 2026, it's all smoke and mirrors.

Gideon: ***"It already is (Editor's note: Visit r/EconomicCollapse for economic updates). So is Europe's economy."***

Bill: I want to ask about our whistleblowers and get an update from them before I forget. How are they doing?

Gideon: ***"Their job contract is up for renewal. I cannot be specific, of course, I have to be vague to protect them, but there are potential changes coming. I can also say that through them, another colleague is now working with us, it is a very good development for us."***

Bill: That's encouraging. I'm sure we'll get some future updates on that. What about the status of our team?

Gideon: ***"There are some issues we are dealing with, but overall, our team is safe and intact. I am preparing some major updates to be shared privately with our team for 2026. Preparation is key."***

Bill: We talked about doing videos or a podcast of some kind, so instead of people reading Intel Drops, they can also listen to something. What is the status on that?

Gideon: ***"I am looking at things with Michael. There are non-A.I. voice changers available, but they have vulnerabilities. We are looking at all options. Some of the A.I.-generated voices are probably safe, but we will only proceed if it is safe."***

Bill: I just mention it because YouTube is such a huge thing, videos are such a huge thing, people just don't have the attention span for reading an Intel Drop. I feel we have to do more, before the end game. If this A.I. activates in how you said, in 2027, or sooner, that's going to be it, in terms of reaching people.

Gideon: ***"It will be. Once a person is activated, they will be lost."***

Bill: What about the antidote, do you have any news on that?

Gideon: ***"Only that the method of delivery we are now aware of, and it is non-invasive. It is not a pill or shot or drug. That is all I can say. It will be safe for our team, and it is required to avoid everything that is coming."***

Bill: When will Sovereigns and our team be issued that, do you think?

Gideon: ***"Right before Obsidian or the activation takes place. The whistleblowers have told me some things about how it will be deployed. Our team should have no issue getting it."***

Bill: Well, I'm thankful we're all together on this, I'd feel totally alone without you, without our team. I'm extremely thankful for this mission.

Gideon: ***"So am I."***

Bill: You told me that our readers should expect some major revelations from us in the next year, can you speak on that?

Gideon: ***"I am finally ready to release what I believe will be very damaging information against the cabal, because it will reveal certain classified plans. What I have said about A.I. so far is pushing the edge of what I can say, but there is more.***

My guide said it is time that it be done, even if there is escalation. If the cabal chooses to remove our profiles, remove our website, remove certain public

things - which they can do - we are ready for that, as our team and our mission will just carry on privately."

Bill: What's motivating this, exactly?

Gideon: ***"There is a belief some things need to be said and known, even if the public rejects them. It still needs to be said."***

Bill: Then I look forward to that. We spoke the other day about prayer, the need for prayer. I think we all need to call upon God in the coming year and ask for protection, because 2026 is the tipping point, there's no going back after what the cabal's going to do.

Gideon: ***"There is no going back, no, and prayer is extremely important because it invites God to take action on our behalf. I think the cabal despises prayer, so you see it is often dismissed or laughed at in popular culture."***

Bill: I'm going to bring this to a close, it's been a great discussion as always. I want to say I look forward to the new year, but I really don't, everything I'm hearing says this upcoming year is just going to be a continuation of 2025. We think the Tribulation has already started, so it's only going to get worse from here on out.

Gideon: ***"Unfortunately, it is."***

Bill: Stay safe, my prayers are with you and everyone on our team, God bless.

Gideon: ***"You as well, Bill, we will speak again soon. Good night."***

Our Team & Our Mission: Join our efforts to *stop* Obsidian & to protect you and your family.

Please ***share*** this article, so we can keep spreading the word. **Join our Telegrams** (group, announcements, news, spiritual discussion). Join **Bill's Twitter here, and our**

official We Are Sovereign Twitter here. Our official email is securecommssov@proton.me.

Update: We continue to see serious problems with email. Emails like MSN, Me, iCloud, Outlook, AOL, Gmail, Gmx, Yahoo, Hotmail, Comcast and many others routinely BLOCK and CENSOR our emails. These email providers are also known to read your emails and offer *no* security at all. No one should be using them, but many people who contact us are using them.

We recommend opening an anonymous account using Proton.me, Hushmail.com, Tutanota.com. These providers are end to end encrypted, and have proven they do not block our emails.

Update: If you have recently found our information, we recommend reading all of our posts going back to July of 2022, which have covered a multitude of issues in detail. You can find an introductory article here, our *new* Intel Drops here, and our *older* (censored) Intel Drops in our full link list.

Note: We also recommend reading our *Cosmic Rules Are About To Change* series of Intel Drops for the full context of what is transpiring from a spiritual perspective (Part 1, Part 2, Part 3, Part 4, Part 5, Part 6, and Part 7).
